

How To Add Family Members To Your Account

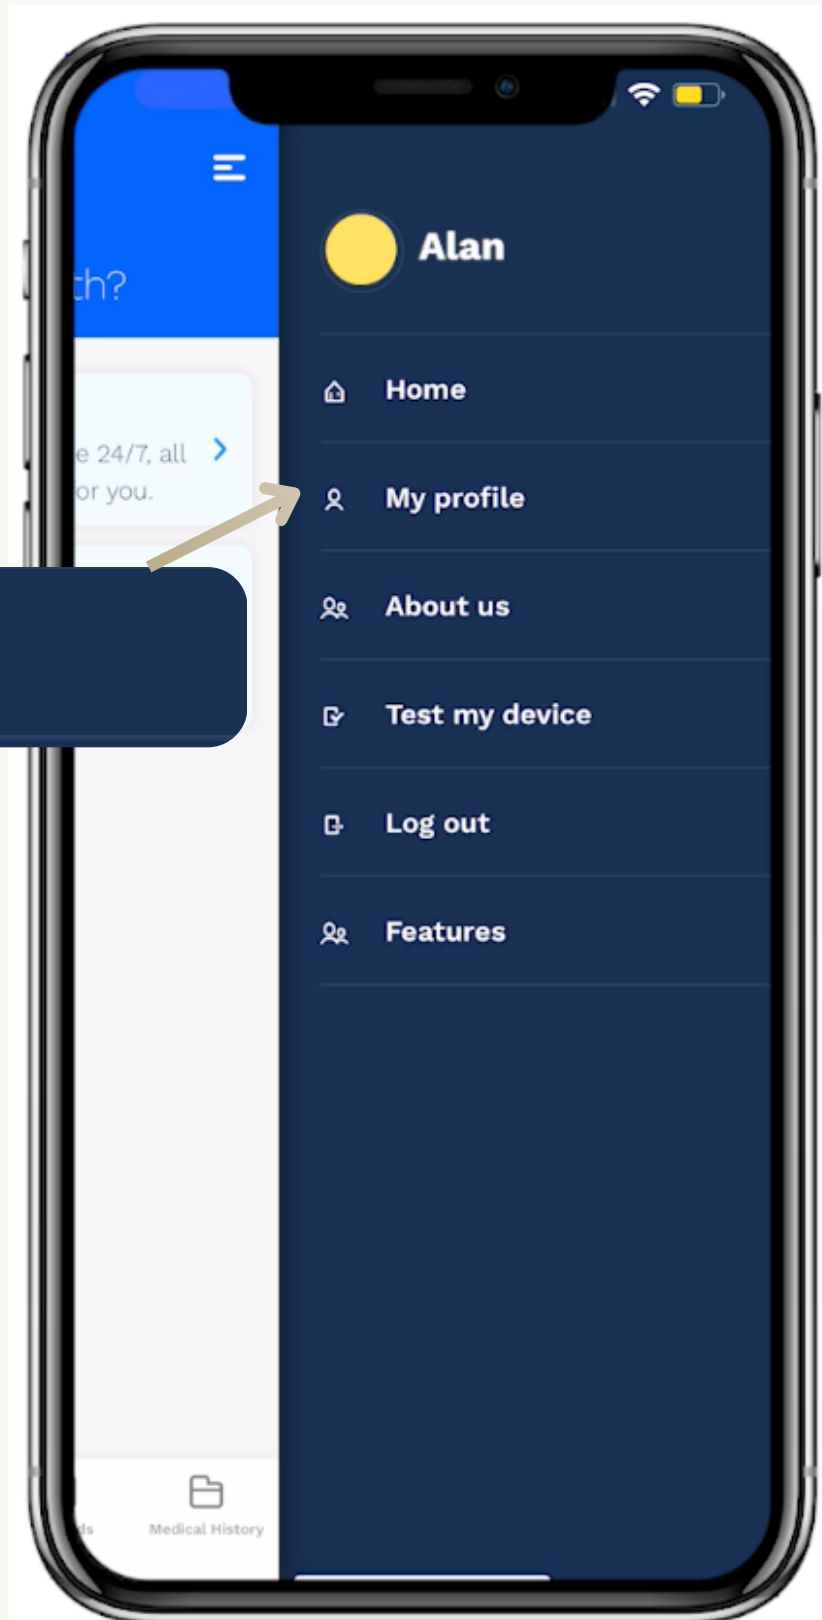

1. Click on the 3 lines in the top right corner.

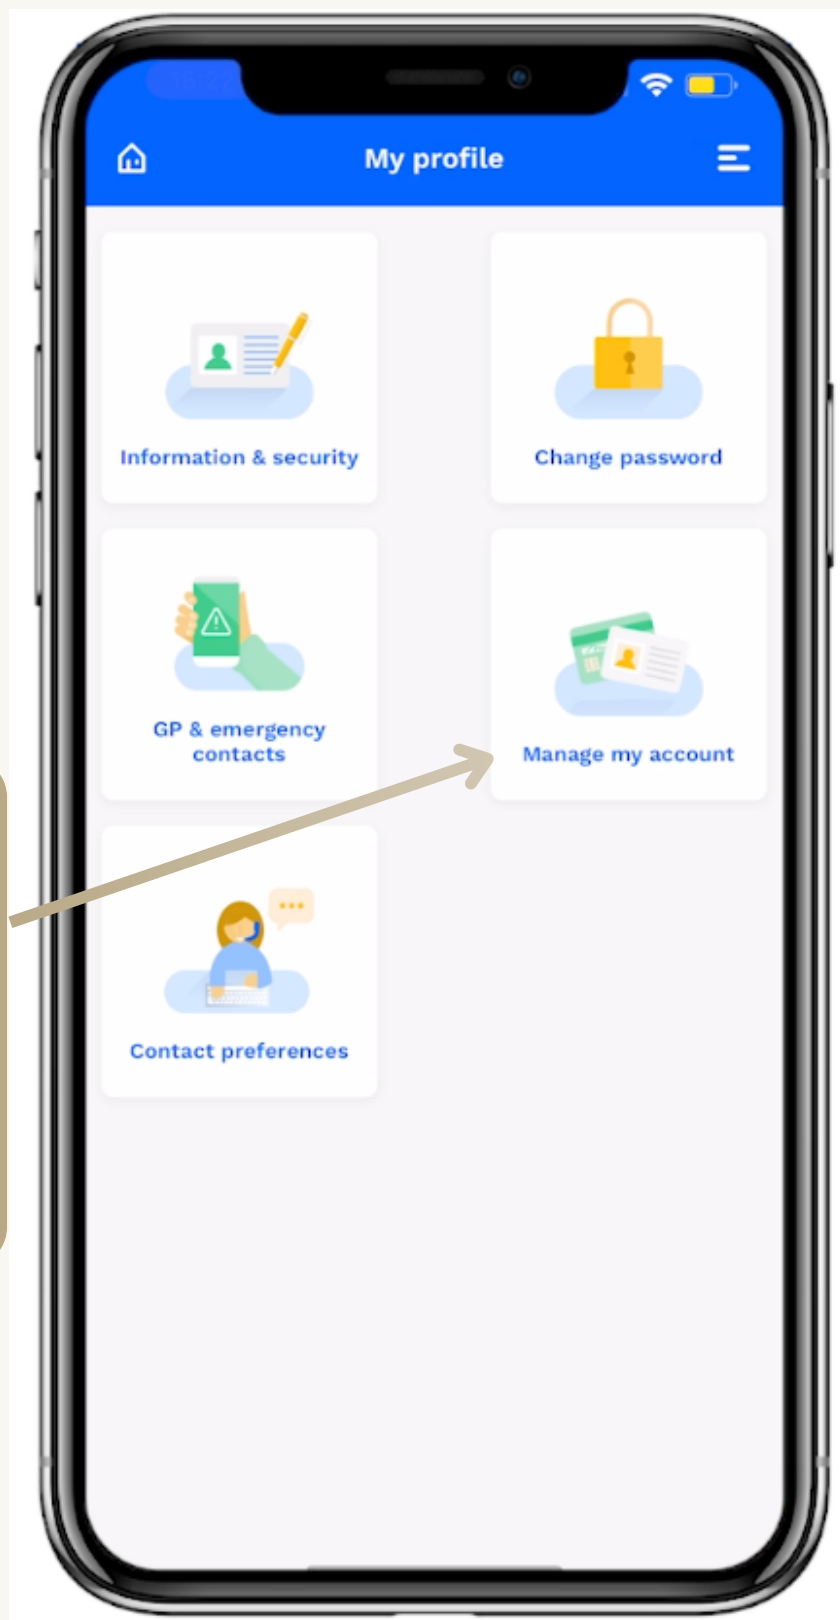

Click here

2. Select 'My profile'.

 **My profile**

3. Select 'Manage my account'.

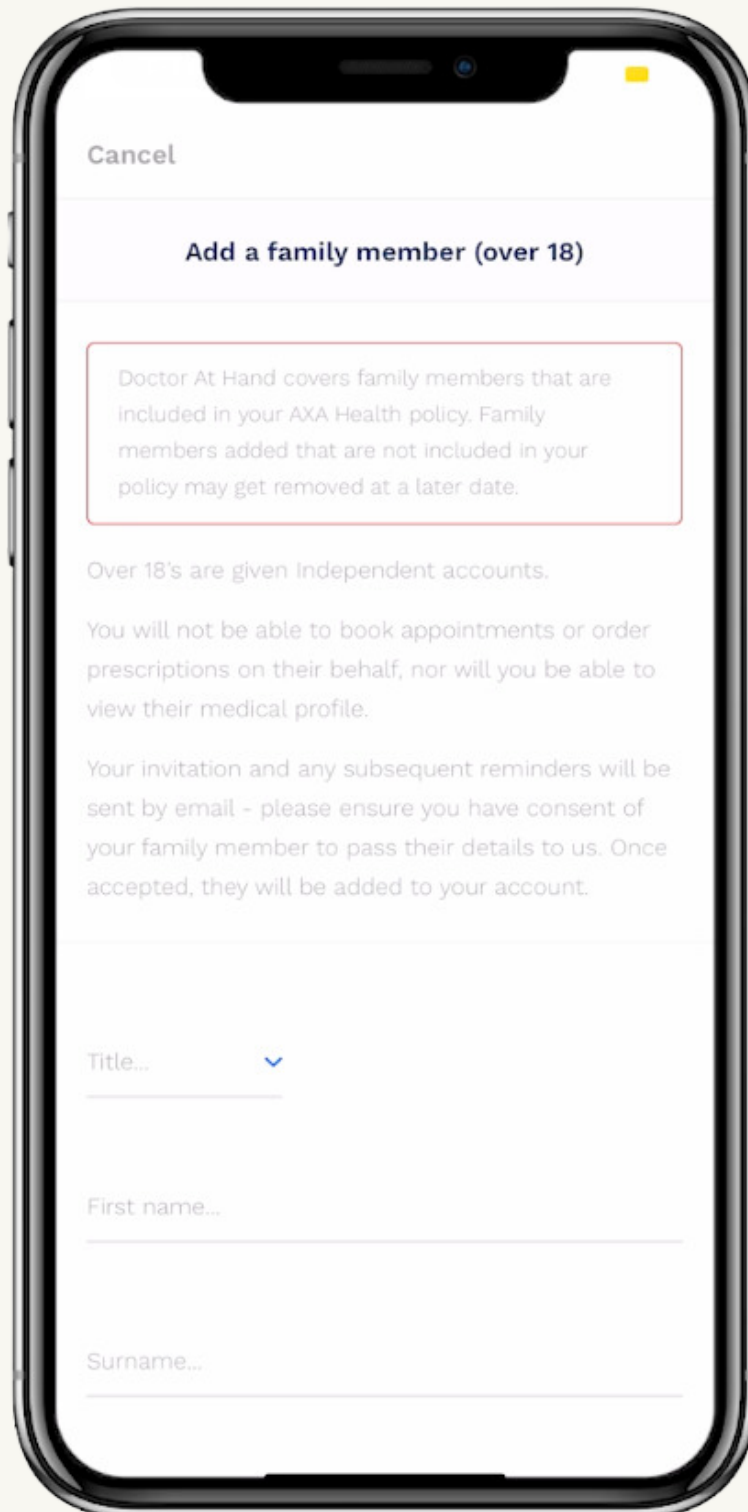

Manage my account

4. Select 'Add family member'.

5. Fill in details accordingly and click 'Done' once ready.

Cancel

Add a family member (over 18)

Doctor At Hand covers family members that are included in your AXA Health policy. Family members added that are not included in your policy may get removed at a later date.

Over 18's are given Independent accounts.

You will not be able to book appointments or order prescriptions on their behalf, nor will you be able to view their medical profile.

Your invitation and any subsequent reminders will be sent by email - please ensure you have consent of your family member to pass their details to us. Once accepted, they will be added to your account.

Title... 

First name...

Surname...

Your family member will receive an email at the provided address on how to set up their Doctor Care Anywhere account if they are over 18 years of age.

If they are under 18 years old you will be asked to provide proof of guardianship.
